ACADEMIC PROJECT

AI Powered Photo Privacy in Social Media (01/2025 – 04/2025)

Advanced web application leveraging computer vision and image recognition to prevent unauthorized image use, including screenshot analysis. Introduced a request-sharing system for user approval before sharing, enhancing control over photo privacy. Expanded on the foundation of the undergraduate project to push the boundaries of AI-driven social privacy solutions.

MY PRIVACY MY DECISION (11/2022 – 04/2023)

Developed a web application to prevent unauthorized image sharing on social media using computer vision and image recognition. Implemented a user consent system, ensuring posts go public only with approval. Collaborated on design and development to enhance social privacy.
